Yes	Good	Average	Better	More than Average	Ok	Good	She was cool. Sucks she's leaving though. I liked her, although it seemed if you got on her bad side she didn't seem to have as much respect for you, which, is understandable because if they're not going to respect you should you respect them? Although she was awesome cause she could take a joke, I liked to joke around and be sarcastic and stuff and she didn't mind at all it was just people who really got on her nerves like Brandon, and thank God he's gone I could not stand him. Over all Ms. Grapes was a good teacher and I'm going to track her down when she's teaching one day and find out where she teaches and come say hi in my radio voice.
